
KDC universal 3-4 channels microprocessor based programmable PID controller.

Inputs: 3+1 independent channels, 3 for TC-s, 4 for RTD-s, or mixed.

13 types of TC

4 types of RTD

6 types of Ω , U, I

Programmable up to 500 segments

Registering: by serial port on "Esc P" printer

Outputs: I. and II relay III. and IV. OPC 2 analogue 0-20mA
